Why Gazelle Consulting

Experts in networks and telecoms

Welcome to Gazelle Consulting

We are an expert IT and telecoms consultancy that provides independent and expert advice on your communications needs and delivers a range of voice, IT and data solutions.

Our services range from phone lines, calls and broadband to phone systems, maintenance and wide area networks.

We provide our customers with a range of important benefits including:

-  Simplify your supply chain with our range of services
-  Great rates for your communications
-  UK based customer service
-  Online billing and management reports
-  No hidden charges.

We search the market to find the most suitable package for our customers and to take the hassle out of finding the right solution.

To help identify a more efficient and cost effective solution to your communications needs we offer all new customers a **FREE** consultation and health check.

Contact us now to find out more and to receive your free consultation.
